

Declaration of Interests by BSHAA Council members

The Articles of the Association item 18, concerns directors of the BSHAA council and the potential conflicts of interest that may arise. In the interest of good governance and to assist the Council in these matters please could you complete and return the below form:

Name JAY JINDAL

Please complete **either** section A or B

Section A. Declaration of interests

Enter all appropriate information below detailing any commercial or professional interest which could come into conflict with your appointment as Professional Development Consultant for BSHAA;

Consultant Audiologist and CEO of Audiology Planet:

- 1) I provide audiology consultancy service to professionals and businesses/organisations (e.g. NCHA). None of this work is currently directly related to BSHAA or its members and certainly there is no conflict to disclose in the current work streams. However, I will declare, should a potential conflict arise due to this work.
- 2) I organise various audiology events through audiology planet. Events are marketed through various public channels and I declare them in the Delivery committee meetings 3) I also provide audiology clinical services to my own clientele. Although, I will very rarely offer a direct clinical advice for any particular client of a BSHAA member but there has been queries in the past related to referral for paediatric clients and I am one of the few private providers of paediatric audiology services in UK. I tend to deal with these questions as neutrally as I can.
- Member of Professional Guidance Group of British Society of Audiologists: It is a voluntary role where I help as an author or reviewer of guidance on audiology

Please note this information will be reviewed by President, CEO and Secretary

<p>topics. If I am an author of a particular guidance, I make sure that I am dissociated with the process of collecting BSHAA's feedback on that particular document.</p>
<p>- Member of Fitness to Practice (FTP) Panel of Health and Care Professions Council: I sit in the FTP investigations of Hearing Aid Audiologists (HADs). HADs under investigation may or may not be BSHAA members.</p>
<p>- I would infrequently undertake temporary, part-time contractual audiology positions with some NHS Trust, mainly in and around London. These roles have been strategic/managerial in the past but are mainly clinical at the moment. On occasions where a view has to be made about the practice of NHS colleagues (e.g. NHS departments providing private hearing care), I am objective and tend to make a decision on the basis of my own reflections (rather than the job/s) and in the best interest of the profession.</p>
